

FOR PRESCHOOLS, DAYCARES & CAMPS

Camp, daycare & kindergarten physicals

Walk in with the form — it is completed and signed during the visit.

Camps, daycares, preschools and kindergarten programs ask for a completed physical — most often the Florida DH 3040. Both Broward clinics do them as walk-ins, seven days a week.

✓ DH 3040 signed at the visit

✓ Due vaccines given the same day

✓ Children from age 3

✓ Open 7 days · no appointment

What the physical covers

- ✓ Height, weight, blood pressure and vital signs.
- ✓ Vision and hearing screening as the form requires.
- ✓ A head-to-toe examination, including heart and lungs.
- ✓ A review of the child's medical history, allergies and any medication the camp or daycare will need to give.
- ✓ A review of the immunization record — vaccines that are due can be given during the same visit.

Different programs, different forms

A summer-camp form, a daycare or preschool form and a school-entry physical ask for different information, and school sports use the separate FHSAA forms. Bring whichever form the program gave you — if a child needs two, both can be completed in one visit.

What families bring

- 1 The camp, daycare or school form, even if it is partly filled in.
- 2 The immunization record — Florida form DH 680 if they have it.

Children from age 3

Both clinics see children from age 3 for camp, daycare, preschool and school physicals. Younger children are best seen by their pediatrician.

Busiest in late spring and August

Camp and school forms peak then — earlier in the day is usually faster.

urgentmed.us/services/camp-daycare-physicals

Camp and daycare physicals are often not covered by insurance because a third party requests them; the front desk quotes the self-pay price before your child is seen.

Emergency? Call 911.

Chest pain, trouble breathing, severe bleeding or stroke symptoms need an emergency room.
