

FOR CDL SCHOOLS, FLEETS & SAFETY MANAGERS

DOT physicals

Walk in — medical card at the visit when the driver qualifies.

CDL medical exams by certified medical examiners listed on the FMCSA National Registry, on site every day the clinic is open — at Davie and Plantation, both just off I-595.

- ✓ FMCSA National Registry examiners
- ✓ Med card at the visit when qualified
- ✓ DOT drug test in the same stop
- ✓ Open 7 days · no “DOT days”

What the exam covers

- ✓ Health history and the driver questionnaire, completed on arrival.
- ✓ Vision (with glasses or contacts), hearing, blood pressure and pulse.
- ✓ A urinalysis for protein, blood and sugar — a screen, not a drug test.
- ✓ A physical exam of the heart, lungs, abdomen, spine, limbs and nervous system.
- ✓ Results sent electronically to the FMCSA National Registry.
- ✓ An EKG or lung-function test on site the same day when the driver's history calls for one.

Good to know

- ✓ A medical card lasts up to 24 months; conditions that need monitoring shorten it to 3, 6 or 12 months.
- ✓ No fasting: drivers take their usual medications and eat normally, and skip caffeine, nicotine and energy drinks beforehand — they raise the blood-pressure reading.

What drivers bring

- 1 Driver's license, glasses or contacts, and hearing aids if used.
- 2 A list of medications with doses.
- 3 Paperwork for any condition: a recent A1c (insulin-treated diabetes: the MCSA-5870 completed within the last 45 days), a CPAP compliance report, or a cardiology letter.

For schools and fleets

Students can walk in the week they need their certificate — no appointment. Fleets can open an account: results reported to the safety manager, employer accounts billed directly, DOT drug and alcohol collections in the same visit.
