Services

- ✓ Pre-employment and employer physicals — matched to the job, your form completed at the visit.
- ✓ DOT / CDL physicals by certified medical examiners.
- ✓ Drug and alcohol testing — DOT and non-DOT panels, breath alcohol, chain of custody, post-accident and random.
- ✓ Workers' comp injury care — treatment the same day, with the DWC-25 and a work-status note at the visit.
- ✓ Fit-for-duty and return-to-work evaluations.
- ✓ Occupational screenings — TB tests, titers and immunizations, vision, spirometry, respirator clearance and fit testing, EKG.
- ✓ Executive physicals as a staff benefit — EKG, spirometry, body composition, vision and hearing and an expanded lab panel, with a written report.

How it works

- 1 Set up an account: the services you use, your designated contact, and how reports reach you.
- 2 Send the employee with an authorization — walk-in, no appointment.
- 3 Same-day reporting to your contact, and for injuries to the carrier.
- 4 Follow-up through return to work, with restrictions updated at each visit.

Work injury today?

Send the employee to either clinic and tell us they are coming; a standing account pre-authorizes care. Medications and braces are supplied at the visit and billed to the claim.

Walk-in urgent care for your staff and their families, too — most insurance accepted.
