

FOR IMMIGRATION LAW FIRMS & LEGAL-AID OFFICES

I-693 immigration medical exams

Walk-in, seven days — civil surgeons at both clinics.

Send clients to a USCIS-designated civil surgeon with the TB blood test, labs and chest X-ray in the same building, at Davie or Plantation. The sealed I-693 is usually ready in a few business days.

✓ Walk-in · 7 days a week

✓ Civil surgeons at both clinics

✓ TB test, labs & X-ray on site

✓ Spanish-speaking staff

What your clients get

- ✓ The exam, the TB blood test, the lab draw and, when needed, the chest X-ray in one building.
- ✓ The vaccines the clinic stocks — tetanus, hepatitis B, MMR, varicella, polio, and flu in season — at the same visit.
- ✓ The sealed I-693, usually in a few business days once lab results return; a call first if a repeat test or a chest X-ray is needed.
- ✓ Self-pay, not billed to insurance: the front desk quotes the exam, labs and any vaccines before the visit.

What your office gets

- ✓ A copy of the completed I-693 for your file, by secure e-mail or fax as your office asks, once the client signs a release naming your office. The original stays sealed for filing.
- ✓ Timing you can plan around: USCIS wants the sealed I-693 filed with the I-485, and walk-in access lets the exam happen when the file is ready.

What the client brings

- 1 Photo ID — passport, driver's license or state ID.
- 2 The current Form I-693 (uscis.gov/i-693), unsigned — it is signed in front of the civil surgeon.
- 3 Every vaccination record, from any country; records in another language need a reliable English translation.
- 4 Any prior TB test or chest X-ray report, and a list of medications and chronic conditions.
- 5 Your office's contact details and how you want the copy of the completed form: secure e-mail or fax.

After the visit

The civil surgeon completes, signs and seals the form; the client files the sealed envelope unopened with the I-485.
